

Gas Check Valves for White/Superior engines

Industrial Series Gas Pro

Part number 5775-GCV.

Industrial Series Gas Pro is a new and improved design from the OE style.

The simplicity of the internal workings of this valve makes it longer lasting, easier to clean and more efficient.

The 5775-GCV offers much better corrosion protection and extended run time hours between cleanings.

Some customers have commented that the advanced internal design improves the low speed idle characteristics of the engine.

These are manufactured in the United States in a certified ISO 9001 facility.

The highest grade metals, ISO and AS9100 certified machining standards are used in producing this product.

Specific engine models for the 5775-GCV:

- 6/8-G-825
- 6/8-GT-825
- 8-SGTB
- 12/16-G-825
- 12/16-GTL-SGT
- 16SGTD
- 16SGTB

Interchange Numbers:

- 040-070-001 (Cooper)
- 034-220 (Generant)
- 031-665 (Generant)
